Aether Dynamics Corp

Synthetic BI Executive Summary 2010–2026

Document ID: BI-PDF-001 | SYNAPTIX COMMAND Prototype Data

1. Scope

This summary accompanies the SYNAPTIX_BI_ANALYTICS_DATASET package. All figures are synthetic and aligned with the Finance workspace revenue history for Aether Dynamics Corp. Dimensions include year, month, business segment, and region.

2. Key Observed Metrics

Metric	Value
Peak revenue (2018)	118.9 USD M
Trough revenue (2021)	68.5 USD M
Largest YoY decline	2020 (–26.9%)
2024 anomaly revenue	88.1 USD M (–8.0% YoY)
2026 revenue	124.7 USD M

3. Anomalies

Five planted anomalies (ANOM-BI-001…005) cover the 2019–2021 decline episode, the 2024 revenue and margin break, and the 2024 Q3 monthly compression. See Anomalies_Log in the Excel workbook and DATASET_REPORT.md.

4. Analytical Caution

Trends above are observed in the synthetic tables. Causal explanations are not established by this BI dataset. Where Finance notes mention inventory or project factors, treat those as labelled hypotheses for cross-document tests.

5. Package Contents

Excel workbook (6 sheets), four CSV extracts, data dictionary, dataset report, dashboard specification, 12 analytics test questions with expected answers, and this PDF.

Synthetic prototype data — not for operational or investment use.
